## FRONTEND DEVELOPER

harshitasahu0720@gmail.com || 6263571137 || Indore, India

### PROFESSIONAL SUMMARY

React Native and React Developer with 2+ years of experience building cross-platform casino and fintech apps. Skilled in API integration, Redux Toolkit, and creating scalable UI/UX for both mobile and web. Hands-on experience contributing to production-level applications across player and admin portals.

### TECHNICAL SKILLS

- **Languages:** JavaScript, HTML, CSS, C++
- **Frameworks/Libraries:** React.js, React Native
- **State Management & Middleware:** Redux Toolkit, Thunk, RTK Query
- **Tools:** Git, GitLab, VS Code, Chrome DevTools, Postman, Jira, Mondayboard, Figma, Android Studio
- **UI Libraries:** Material UI, Tailwind CSS

### WORK EXPERIENCE

Solution Engineer | Gammastack | June 2023 - Present

#### Casino Mobile Applications

- Developed multiple React Native casino and sweepstake apps including Casino Elite, Los Tres Reyes, Owner's Club, and Bittu B.
- Integrated with providers like **Hacksaw**, **Zeetech** etc, built key features like game play modules, user onboarding, lobby systems, and payment workflows.
- Tech Stack: **React Native (v0.69-0.72)**, **Redux Toolkit**, **Thunk**, **i18next**, **Native Base**.

#### FF Deposit & RR Deposit

- Built a fintech automation module that parses bank SMS to auto-deposit funds into casino accounts — reduced manual processing by 80%.
- Designed and developed the FF Deposit app end-to-end and managed third-party integration and demos with NUX. RR Deposit was a cloned solution delivered for another client.
- Tech Stack: **React Native**, **Android Permissions**, **Redux**, **Async Storage**, **Axios**.

#### The Money Factory

- Contributed to a live React-based project on both the player-facing and admin sides.
- Implemented KYC integration (Sumsub), SEO optimization, and event tracking via Optimove on the player end.
- On the admin end, developed promo code modules and resolved key bugs to improve system stability.

#### Bet shop Cashier Application

- POS-based React Native app for sportsbook operations.
- Managing user details, sportsbook integration, and bet slip printing on handheld devices.
- Tech Stack: **React Native**, **Redux Toolkit**, **REST APIs**.

### ACADEMIC HISTORY

#### Bachelor of Computer Application

School of Computer Science & IT, DAVV | 7.2 CGPA

2018-2021

#### Master of Computer Application

School of Computer Science & IT, DAVV | 7.4 CGPA

2021-2023
